From the City of Sugar Land

AMI is Coming to Sugar Land

The City of Sugar Land is investing in our infrastructure by implementing ADVANCED METERING INFRASTRUCTURE (AMI). AMI will allow the City to receive real time water usage data and residents to view their water usage in the online portal. AMI allows the City to continue providing a high level of service for our residents.

To learn more about this project, click on the link below:

<https://www.sugarlandtx.gov/2240/Advanced-Metering-Infrastructure-for-Sug>

You will mostly likely receive a flyer from the city in the coming months.
